

Gearbox Dual Overdrive

WAMPLERPEDALS.COM

WAMPLER
BUILT IN USA

The Gearbox Dual Overdrive was developed with Andy Wood, an artist whose music is known for blurring the line of preconceived genres. It features two independent circuits (channels) in one enclosure. Channel 1, on the right hand, is a tweaked version of the Tumnus circuit. Channel 2, on the left side, pedal gives you a specially modified Pinnacle circuit with a unique Noise Gate control.

Level: Controls the total output volume of each channel.

Gain: This control adjusts the total amount of gain that is applied to the signal path of each channel, turning this control clockwise will increase the amount.

Bass / Mids / Treble: Adjust the amount of low-end, mid-range, and high-end frequencies in Channel 2, turning clockwise will increase the levels, counter clockwise to decrease.

Gate: Filter unwanted noise with this control, turning this past 12 o'clock will radically gate the noise. Only affects Channel 2.

Tone: Adjusts the amount of tone / clarity on Channel 1, turn clockwise for increased treble.

Order: Change the stacking order with this switch if you are using only one input and output cable.

Connections: This pedal has 2 pairs of input and output jacks: if you are using only one set connect to the jacks marked with solid triangles; if you are using both sets, the outline triangles indicate the separate output for Channel 1 and input for Channel 2. This allows you to connect both channels independently (to a switcher for example)

Power: This pedal was designed around the usage of a 9V DC power source only. To avoid damage to the pedal, do not exceed 9V DC, do not use center pin positive adapters, and do not use AC power. Use only a 9V DC power source that is intended for guitar pedals. This pedal draws approximately 51.5mA at 9V. NOTE: we recommend disconnecting the battery if used with a power supply. Batteries will drain quickly on this pedal due to its architecture.

WAMPLER Pedals Limited Warranty WAMPLER offers a five (5) year warranty to the original purchaser that this WAMPLER product will be free from defects in material and workmanship. A dated sales receipt will establish coverage under this warranty. This warranty does not cover service or parts to repair damage caused by accident, neglect, normal cosmetic wear, disaster, misuse, abuse, negligence, inadequate packing or shipping procedures and service, repair or modifications to the product, which have not been authorized or approved by WAMPLER. If this product is defective in materials or workmanship as warranted above, your sole remedy shall be repair or replacement as provided below.

RETURN PROCEDURES

In the unlikely event that a defect should occur, follow the procedure outlined below. Defective products must be shipped, together with a dated sales receipt, freight pre-paid and insured directly to WAMPLER SERVICE DEPT - 3383 Gage Ave., Huntington Park, CA 90255. A Return Authorization Number must be obtained from our Customer Service Department prior to shipping the product. Products must be shipped in their original packaging or its equivalent; in any case, the risk of loss or damage in transit is to be borne by the purchaser. The Return Authorization Number must appear in large print directly below the shipping address. Always include a brief description of the defect, along with your correct return address and telephone number.

When emailing to inquire about a returned product, always refer to the Return Authorization Number. If WAMPLER determines that the unit was defective in materials or workmanship at any time during the warranty period, WAMPLER has the option of repairing or replacing the product at no additional charge, except as set forth below. All replaced parts become a property of WAMPLER. Products replaced or repaired under this warranty will be returned via ground shipping within the United States-freight prepaid. WAMPLER is not responsible for costs associated with expedited shipping, either to WAMPLER or the return of the product to the customer.

INCIDENTAL OR CONSEQUENTIAL DAMAGE In no event is WAMPLER liable for any incidental or consequential damages arising out of the use or inability to use of any WAMPLER product, even if WAMPLER or a WAMPLER dealer has been advised of the possibility of such damages, or any other claim by any other party. Some states do not allow the exclusion or limitation of consequential damages, so the above limitation and exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

FOR YOUR PROTECTION

Please complete the online warranty registration within (10) ten days of the date of purchase so that we may contact you directly in the event a safety notification issued in accordance with the 1972 Consumer Product Safety Act.
